PROJECTS & EXPERIENCE

Front-End Experience

TRF Media /digital-marketing node · Sept 2024 – Present

- I designed and developed the complete frontend and backend for TRF Media digital marketing node.
- The platform is built for performance, scalability, and a smooth user experience.
- From UI design to backend logic, everything is custom-built and fully responsive.

Full Stack - Ongoing

- <https://www.mushacay.com/>
- <https://aspenluxuryconcierge.com/>
- Completed many projects with FE stack and MERN stack

Automation Projects

Many Automated projects with n8n

- Built end-to-end n8n workflows solving real-world business problems.
- Automated tasks like lead capture, email sequences, and data syncing.
- Focused on reliability, efficiency, and integration with tools like Cal.com and APIs.

EXTRACURRICULAR & INITIATIVES

- Passionate frontend developer engaged in UI-focused coding communities and design forums.
- Enthusiast of no-code/low-code automation, often experimenting with real-world use cases.
- Driven by problem-solving and improving efficiency through smart automation solutions.

LANGUAGES

- English (fluent); Hindi (native)
